**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

The amendment of 4/5/04 modified the definition of the EPI in the specification and in claims 1-11 (the amended text of claims 12-23 appears to be consistent with the originally filed specification and is supported by the original specification). Upon review of the original specification, it appears that the amendment is not supported by the original specification. Prior to the amendment, the specification considered both two types of EPI's – termed redeemable items, such as tickets, and non-redeemable items, such as bicycles. As understood by the examiner, the original specification does not define the events associated with the ticket as the EPI. As such, the amendments to claims 1-11 and the specification introduce new matter. In considering the claims for the following election requirement, the original specification was used and the amendments to claims 1-11 were not considered. The amendments which are not consistent with the original specification should be withdrawn.

Should the Applicant have any questions, please feel free to contact the examiner at the number below.

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention: Species I, drawn to Fig. 2 (claims 13-23 as interpreted by the examiner); Species II, drawn to no figure but described on pages 12-13 of the specification (claim 12 as understood by the examiner).

It is noted that original claims 1-11 are associated with a species not shown in the specification.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven B. McAllister whose telephone number is (703) 308-7052. The examiner can normally be reached on M-Th 8-6:30.
